

**Job Title:** Software Test Analyst (Leeds, UK). Permanent position.

**Salary:** £25,000 to £29,000 depending on experience  
with pension and generous holiday allowance

Medisoft, the UK's leading provider of software for hospital ophthalmology services and private eye clinics, is looking for a Software Test Analyst to lead the review and quality assurance of an innovative new health records system, mediSIGHT®.

Our main product, Medisoft Ophthalmology, is used routinely at over 150 hospitals worldwide to help clinical teams assess vision defects and save sight. mediSIGHT® will replace Medisoft Ophthalmology as Medisoft's flagship product, consolidating over 20 years of product development and user feedback.

The successful candidate will be a natural communicator with an eye for detail. Good technical ability and a proven aptitude for problem-solving are essential.

Candidates must be able to demonstrate:

- Experience of software testing and a proven ability to implement test processes
- Excellent working knowledge of test management and automation test tools
- Ability to design and develop detailed test cases based on software requirements specifications (SRS) and software design description (SDD)
- Aptitude for identifying opportunities for product improvement
- Familiarity with testing Windows desktop applications
- Very strong communication skills and thorough, carefully written documentation
- Strong initiative and proven ability to apply judgement
- A proven ability to work within corporate processes and quality management systems
- A passion for reliable, elegant and usable software
- A good understanding of the technical and practical challenges encountered during a software development project.
- Strong SQL skills

We don't expect specific knowledge of ophthalmology, but we're looking for a quick learner who is genuinely excited about our product, our market, and how we can improve the practice of specialist eye care. Personal development is a priority for Medisoft and we would encourage software analysts looking to gain wider exposure to the test lifecycle and develop their management skills to apply.

The post is based at our offices in Leeds, but occasional travel may be required. As part of the interview process, candidates will be presented with a number of written tasks to test some of the key skills required for this position. Medisoft is an equal opportunities employer.

If you think you can bring something special to our award-winning team, please e-mail a current CV and covering letter to [careers@medisoft.co.uk](mailto:careers@medisoft.co.uk).

**Strictly no agency applications please.**
