Job Title:	Graduate Software Test Analyst, French Speaking
Number of Reports:	0
Accountable to:	Software Test Manager
Reports to:	Software Test Manager
Salary:	£22,000 to £25,000 dependant on experience
Location:	Leeds, 33 Park Place
Type:	Permanent
Contracted Hours:	37.5 hours per week (full-time)

ABOUT US

Medisoft, the UK's leading provider of software for hospital ophthalmology services and private eye clinics. Medisoft is looking for a Graduate Software Test Analyst who speaks French to lead the review and quality assurance of an innovative new health records system, mediSIGHT®.

Our main product, Medisoft Ophthalmology, is used routinely at over 150 hospitals worldwide to help clinical teams assess vision defects and save sight. mediSIGHT® will replace Medisoft Ophthalmology as Medisoft's flagship product, consolidating over 20 years of product development and user feedback.

ABOUT YOU

The successful candidate will be a natural communicator with an eye for detail. Good technical ability and a proven aptitude for problem-solving are essential.

Daily responsibilities include:

- Writing detailed test cases based on product feature specifications, to be reviewed by the Test Manager
- Contribute to feature review meetings with analysts to finalise the feature design and behaviour
- Manage defects, improvements and test cases in Microsoft TFS
- Work with other team members to find solutions to defects or introduce product improvements
- Manual testing of new software features
- Interrogate SQL database to verify data quality
- Interact with the development team to ensure the product requirements are met
- Attending the stand up to report back to wider team

Additional tasks

- Manual regression testing prior to release
- Testing of localised systems in various languages
- Occasionally demonstrate new areas of functionality to the wider business in Sprint Review meetings
- Write test cases for our suite of CodedUI automated smoke and regression tests
- Log on to customer sites to test local defects or deployment issues
- Test other Medisoft products such as web portals, apps and interfaces with 3rd party systems
- Test migration of data into mediSIGHT from various sources
- Any other tasks to support the product development team

Candidates must be able to demonstrate:

- Very strong communication skills with thorough, carefully written documentation
- Strong initiative and proven ability to apply judgement
- A proven aptitude for problem-solving
- A passion for reliable, elegant and usable software
- Aptitude for identifying opportunities for product improvement
- Educated to degree level or equivalent
- Experience of working in a Healthcare / science background, or an understanding of it.
- Ability to speak and write in French language

Desirable additional criteria:

- Experience of manual software testing
- Ability to design and develop detailed test cases based on software requirements specifications (SRS) and software design description (SDD)
- A good understanding of the technical and practical challenges encountered during a software development project.
- Experience of SQL

The types of technologies you will be using are:

- TFS
- SQL
- Microsoft Visual Studio
- HL7 Soup
- XML
- CodedUI
- Fiddler
- Microsoft excel, word

We don't expect specific knowledge of ophthalmology, but we're looking for a quick learner who is genuinely excited about our product, our market, and how we can improve the practice of specialist eye care. Personal development is a priority for Medisoft and we would encourage software analysts looking to gain wider exposure to the test lifecycle and develop their management skills.

The post is based at our offices in Leeds, but occasional travel may be required.

Package:

To attract and retain the very best talent we offer a generous package, which includes:

- Newly refurbished office with a short walk from Leeds Train Station
- Flexible working; core hours 10:00 – 3:00
- Free on site gym
- Pension contributions
- Annual Team Tour
- Personal development and training opportunities
- Incremental annual leave entitlement
- Cycle & Travel to work schemes

If you think you can bring something special to our award-winning team, please e-mail a current CV with a covering letter explaining what you feel you could bring to our organisation to HR@medisoft.co.uk.
