WHAT WE DO

Medisoft is an award-winning Leeds-based healthcare IT company; developing and supplying the UK's best-selling ophthalmology patient records system. Our flagship product is used routinely at over 150 hospitals worldwide to help clinical teams assess vision defects and save sight.

WHAT YOU WILL DO

Under the direction of the Chief Technology Officer and Software Test Manager, developing a framework around the performance testing aspect of Medisoft's software products.

- Conduct system Performance testing to ensure system reliability, capacity and scalability.
- Work with testing teams to develop performance test plans and cases
- Analyse test results and coordinate with Development teams (including Analysts) for bug fixes
- Generate test summary reports for management review
- Analyse root causes of performance issues and provide corrective actions
- Develop automated test scenarios and environments for performance testing

The successful candidate will have:

- Strong track record in performance testing and ability to utilise established technologies and frameworks around this discipline
- Experience of testing tools such as Visual Studio, Gatling, Selenium.

- Ability to work in harmony with co-workers
- Determination and persistence

Significant experience of the following will be beneficial

- Experience of Medisoft development technologies and processes including TFS
- Knowledge to provide suggestions on new tools and techniques to improve testing efficiency
- Good working knowledge of Medisoft's preferred technologies including MS, SQL Server, C# and WebAPI

Working for Medisoft is an opportunity to make a real difference to people with eye conditions and the clinical teams who care for them.
